

I'm not a robot

Here is everything I used to dial in the E30 M3: Deciding what protection to go with on your car can be a little confusing, especially with all the new products coming out. I'm jumping ahead a bit in building my car care line-up, but I grew impatient on offering one of my favorites of all time. OG This is the last of the video content from my RUPES USA Advanced Training back in March. Jason Rose, Dylan Von Kleist discuss. This is one of my favorite steps, putting on the Power Lock & Collinite 845 Before adding last step protectant, I did a quick Dr. Colorchip fix to the rear fender area. Then applied one coat of PL+, let cure for. Find the products used in this video below: -Carpro Eraser. I know this is a bit old school, but trust me on this one. Wiping PL+ off the car is an experience every car guy should have at least. Products used Jescar Power Lock + CarCraftAutoDetailing Please Like the Video Enjoy If you'd like to support this channel and future content. I've been on the chase for a "better" glass coating/ I had two high spots that I missed when wiping my original Kamikaze ISM Coating that I needed to address. I have also not treated. Last and most satisfying step in the detailing process is getting it coated. ADS Pro is available to everyone. I really like it. If you'd.
