

I'm not a robot

When it comes to making sure you understand your medications, you may be surprised to learn the most important member of a family is the pharmacist. Americans pay more for prescription drugs than any other country in the world, and according to experts, drug costs will only increase. Most of us take one if not many medications to stay healthy. As we age, we tend to take more and more medications, putting ourselves at a greater risk for adverse drug events. Three types of medications are commonly used. While you may not qualify for senior discounts yet, you don't have to wait to get older to start the fight against getting old. You can take steps to improve your oral health. Oral health is often a key indicator of a person's overall health. In this episode of Animation produced for Community
